

# David King

Enterprise Solutions Architect  
Information Technology

Meet Dave King. Dave began his career with Macomb County in 1999 as an intern in the IT Department, and today is an Enterprise Solutions Architect. Not sure what an Enterprise Solutions Architect does? You aren't alone. Dave works with the business goals of the County and provides technical strategy and vision to meet those goals. This includes design, implementation and maintenance of information systems.

Dave, wife Cortney, Violet (9), Lucy (7) and Leo (5)

Dave recently shared a personal story of the importance of practicing dignity at work, school and home. "I've shown my daughters the Dignity Campaign's gossip graphics and we've been talking about them. Violet and her circle of friends had a disagreement about a rumor. I thought if I showed them that we, as adults, still deal with rumors, they might actually listen to me talk about it."

The King family is taking steps to practice dignity. "Since then, we try to keep each other honest about our intentions when telling a story and how to identify rumors by where we heard the information. It has helped them understand what a fact is versus relying on information told to them by someone else."

We would like to thank Dave for sharing his story and for reminding us that we are never too old, or young, to practice

**DIGNITY**

**DIGNITY IN ACTION**
